Bingham Prepared for Debate,

Special to The Tribune.

BINGHAM. March 31.—The Bingham high school debating team is just whipping into shape the case which it intends to put up against Tooele high school, on April 11. Bingham has the affirmative of the question, now being debated in the state high school league. "Resolved, that the present tariff laws discriminate unjustly against the west in favor of the cast."

justly against the west in favor of the cast.

At first the team rather despaired of being able to find a creditable case on their side of the argument, but several weeks of hard study have given them such command of the question that they hope to put up a good fight against the Tooele people. The Bingham debaters are Delia Coakley, Elizabeth Edwards and Eterick Miller. Two of the judges have already been chosen—J. U. Hicke, superintendent of Tooele county schools, and Orson Ryan, superintendent of the Jordan district. The third judge is to be named by the state committee.

Besides the debate, contests in declamation and public address will take place between the two schools on the same date. The Bingham contestants are: In declamation. Thomas Sorenson; in public address, Miss Louise Dudley. All the events will take place in the high school assembly at Bingham Canyon.
